A row of industrial metal ducts on a rooftop under a cloudy sky. The ducts are made of galvanized steel and feature a 90-degree elbow with a mesh screen at the end. They are mounted on a flat roof, with other buildings visible in the background.

# ABOUT US

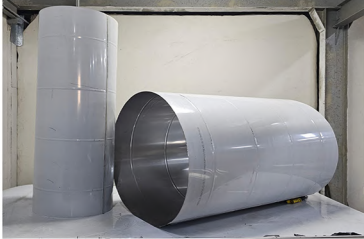

**GULF BREEZE FACTORY** (Eastern Experts EST) was established in 2009 to fabricate and trade HVAC top quality products. Our Factory and head office is based in Al Khobar, KSA. We provide technical and professional services to our customers and offer total support, right from the initial design, selection of products, manufacturing right through to installation. we are SMACNA member and ISO certified factory.

**At GB Factory,** we combine advanced UK-made Firmac HVAC duct machinery with a highly skilled workforce to deliver precision-engineered ductwork and air control solutions. Our technical expertise and customer-focused sales team ensure seamless support for projects across Saudi Arabia.

## Our Product Line Includes:

- Ductwork: Rectangular, round, and spiral ducts (galvanized, stainless, or black steel).
- Specialized Solutions: Single/double-wall ducts, sound attenuators, louvers, access doors.
- Safety & Control Systems: Fire dampers, volume control dampers, VAV & bypass units.
- Custom Fabrication: All types and sizes tailored to project specifications.

## OUR VISION

To lead the future of metal ventilation systems in Saudi Arabia, inspiring trust through innovation, quality, and excellence.

## OUR MISSION

Delivering advanced, sustainable locally manufactured ventilation solutions with precision to prioritize your needs.
